

WITHER TOUCH FX

Installation steps:

- 1.- Unzip the file into your computer.
- 2.- Place the .nifs folders into the generic folder (\Freedom Force vs The 3rd Reich\Data\Art\library\fx\generic\).
- 3.- Place the .dds files into the _textures folder (\Freedom Force vs The 3rd Reich\Data\Art\library\fx_textures\).
- 4.- Open FFedit.
- 5.- Go to the fx tab and select new.
- 6.- Type in the appropriate name for the fx:

Wither touch

- 7.- Select the appropriate "Nif base" for the fx:

library\fx\generic\Wither
touch

- 8.- Select the appropriate Attack type and subtype for the fx

Attack type: Melee
Attack Sub type: none

- 9.- Select the appropriate node attachment points for the fx:

Start: Bip01 R Hand
Launch: Bip01 R Hand
Core: Bip01 R Hand
End: centre

- 10.- Save the fx and it's done.
